

## VA PRIVATIZATION ALREADY WORKS.

**‘A lie is a lie even when everyone believes it; truth remains truth even when nobody believes it. Adolf Hitler.**

Adolf Hitler once quipped, “ [When telling a lie, tell the biggest lie possible, mixed with a grain of truth so that masses will believe it...]” He should know for all the ‘porkys’ he and his Nazi’s got away with telling during WW2. Those folks wrote the book “*Effective Mass Lying 101.*” A pervasive part truth that veterans get ‘free’ healthcare and benefits on par or better than private sector is now a commonly believed, persistent, propagandized, whole lie. Here are the historical facts – you figure out the rest. During the Clinton Administration, first lady, Hillary Clinton’s plan was to sell America on Socialized Healthcare. She needed a sterling Socialized example so chose the VA as her model. Armed with a presidential decree she gave VA an ultimatum: *reform into that sterling model or else.* Hillary needs no introduction: she has sharp teeth and a very nasty bite. In 1994, Clinton put Kenneth Kizer in charge of the VA health system, as Undersecretary of Veterans Affairs. The new sheriff over that agency had large teeth and nasty bite, too. Kizer among his many accomplishments, reformed VA; he modernized the VA’s computer systems, fired poor-performing doctors, support staff, and established private-sector-style metrics to measure the VA’s performance on things like patient wait times, care quality, service, etc. In other words, during his five-year tenure, armed with Oval Office authority, Hillary and Kizer reformed VA into a top-performing healthcare and benefits institution, which became a jealously envied crown jewel US healthcare and benefits system. From entrenched, status quo ‘good old boy and girl’ interests, dead set against them derailing their gravy trains, Hillary and Kizer created a long overdue mammoth train wreck from them to provide quality Veteran healthcare and *the benefits they deserved* for the very first time in VA history. However, all good things end; after Clinton left office and Kizer resigned from VA so did their success story. Recidivism quickly reclaimed the institution to its former train wreck disaster run by status quo ‘good old boy and girl’ special interests: VSO’s, political pork, crony’s, internal corruption, etc while still riding on their gravy trains; all the while, hiding behind claimed and published successes of the Clinton era VA golden age. VA is now considered the worst healthcare system in America; yet, perpetuates commonly believed lies to the contrary. Ref: Avik Roy, Forbes Staff writer.

**Every Vet that defects to private sector fully or in part or those who never enter VA system at all equals privatization.** White Elephant, Dark Horse pseudo-voucher programs like VetChoice and Mission Acts are smoke screens hiding that fact, which only adds more money to VA’s 400 billion dollar annual budget without any benefit to Veterans. **Only fifty-cents of every five budget dollars actually goes to us;** the rest benefits people who never wore a uniform filling pork troughs rewarding VSO’s, politicians, bureaucrats, federal unions, and civil service welfare system corruption. An interesting comment triangulated to me through a senior ward staff member while I was hospitalized at Dallas Regional in 2018, “most of the money coming into here [this hospital] never makes it to the veterans...” Very telling, do not you think? **Think of what 400 billion dollars a year could do in the private sector creating jobs, economic growth, and other benefits to the US Veterans, economy and private healthcare industry that is currently being exhausted on these birds! What a novel idea: return to the economy what was stolen from it to benefit the whole country...Talk about a win/win ROI, ‘return of investment,’ to the US economy and medical industry! Even Wall Street would applaud that one!! Train wrecks cannot be fixed. They are cleaned up, sent to salvage and replaced with new train. VA is a train wreck in toto. Any questions?**

**In other words, Veterans Affairs Department is giving US Socialized Healthcare and benefits systems a VERY BAD REPUTATION!**
